COPD Signs And Symptoms: Understanding The Importance Of Early Detection And Timely Intervention

Image credit: istockphoto.com/yodiyim

The most common symptom of COPD is difficulty in breathing

Chronic obstructive pulmonary disease (COPD) is a common chronic respiratory disease which is characterised by airflow obstruction leading to breathing difficulty. In India, COPD is a significant health concern. According to National Center for Biotechnology Information (NCBI), with 37.8 million cases, COPD in India is the 2nd leading cause of death and disability. Yet, despite being a major cause of health impairment and death, COPD frequently remains undiagnosed. This stems from a
